KONTORER OG AGENTURER

RÅDET

TREGTYVENDE ÅRSBERETNING I HENHOLD TIL ARTIKEL 8, STK. 2, I RÅDETS FÆLLES
HOLDNING 2008/944/FUSP OM FÆLLES REGLER FOR KONTROL MED EKSPORT AF MILITÆR-
TEKNOLOGI OG -UDSTYR

(2021/C 515/01)

INDLEDNING

Denne beretning omfatter data om udstedte tilladelser og afslag på ansøgninger herom og eksport af konventionelle våben fra EU's medlemsstater i kalenderåret 2020. Den omfatter også aktiviteter, som EU og dets medlemsstater udførte inden for rammerne af gennemførelsen af Rådets fælles holdning 2008/944/FUSP ⁽¹⁾ ⁽²⁾ i 2020.

Beretningen er udarbejdet af Tjenesten for EU's Optræden Udadtil på grundlag af data fra medlemsstaterne om deres våbeneksport i 2020. Rådets Gruppe vedrørende Eksport af Konventionelle Våben (COARM-Gruppen) støtter en permanent dialog mellem medlemsstaterne om en sammenhængende anvendelse af de fælles regler for kontrol med våbeneksport. I forbindelse med pandemien fortsatte COARM-Gruppen med at mødes online, og medlemsstaterne fortsatte med at anvende COARM-Gruppens onlinesystem til udveksling af oplysninger og virtuelle bordrunder om følsomme bestemmelsessteder. Beretningen indeholder desuden ikkeudtømmende oplysninger om overførsler af forsvarsrelaterede produkter inden for EU, som er omfattet af Europa-Parlamentets og Rådets direktiv 2009/43/EF ⁽³⁾.

Følgende tredjelande har officielt tilsluttet sig kriterierne og principperne i fælles holdning 2008/944/FUSP som revideret i 2019: Albanien, Bosnien-Hercegovina, Canada, Nordmakedonien, Georgien, Island, Montenegro og Norge. Et system til udveksling af oplysninger mellem EU og Norge har været på plads siden 2012.

Effektiv national våbeneksportkontrol og principperne og kriterierne i fælles holdning 2008/944/FUSP blev fortsat fremmet i udvalgte tredjelande i den periode, som denne beretning dækker, med gennemførelsen af Rådets afgørelse (FUSP) 2020/1464 ⁽⁴⁾, der sikrede opfølgning af Rådets afgørelse (FUSP) 2018/101 ⁽⁵⁾ (ændret ved Rådets afgørelse (FUSP) 2020/794 ⁽⁶⁾). EU's outreachbestrebelse vedrørende universalisering og gennemførelse af våbenhandelstraktaten blev også videreført med en lang række aktiviteter i samme periode i henhold til Rådets afgørelse (FUSP) 2017/915 ⁽⁷⁾ som ændret ved Rådets afgørelse (FUSP) 2020/1134 ⁽⁸⁾.

⁽¹⁾ Juridisk bindende for EU's medlemsstater.

⁽²⁾ Rådets fælles holdning 2008/944/FUSP af 8. december 2008 om fælles regler for kontrol med eksport af militærteknologi og -udstyr (EUT L 335 af 13.12.2008, s. 99), ændret ved Rådets afgørelse (FUSP) 2019/1560 af 16. september 2019 (EUT L 239 af 17.9.2019, s. 16).

⁽³⁾ Europa-Parlamentets og Rådets direktiv 2009/43/EF af 6. maj 2009 om forenkling af vilkår og betingelser for overførsel af forsvarsrelaterede produkter inden for Fællesskabet (EUT L 146 af 10.6.2009, s. 1).

⁽⁴⁾ Rådets afgørelse (FUSP) 2020/1464 af 12. oktober 2020 om fremme af effektiv våbeneksportkontrol (EUT L 335 af 13.10.2020, s. 3).

⁽⁵⁾ Rådets afgørelse (FUSP) 2018/101 af 22. januar 2018 om fremme af effektiv våbeneksportkontrol (EUT L 17 af 23.1.2018, s. 40).

⁽⁶⁾ Rådets afgørelse (FUSP) 2020/794 af 16. juni 2020 om ændring af afgørelse (FUSP) 2018/101 om fremme af effektiv våbeneksportkontrol (EUT L 193 af 17.6.2020, s. 13).

⁽⁷⁾ Rådets afgørelse (FUSP) 2017/915 af 29. maj 2017 om EU-outreachaktiviteter til støtte for gennemførelsen af traktaten om våbenhandel (EUT L 139 af 30.5.2017, s. 38).

⁽⁸⁾ Rådets afgørelse (FUSP) 2020/1134 af 30. juli 2020 om ændring af afgørelse (FUSP) 2017/915 om EU-outreachaktiviteter til støtte for gennemførelsen af traktaten om våbenhandel (EUT L 247 af 31.7.2020, s. 24).

I. GENNEMFØRELSE AF FÆLLES HOLDNING 2008/944/FUSP

1. Opfølgning af revisionen af fælles holdning 2008/944/FUSP

I 2020 indledte COARM-Gruppen sit arbejde med gennemførelsen af målene i Rådets konklusioner af 16. september 2019⁽⁹⁾ om revision af fælles holdning 2008/944/FUSP om kontrol med våbeneksport. Efter at der var opnået enighed i COARM-Gruppen, lancerede Tjenesten for EU's Optræden Udadtil i oktober 2020 på sit websted en onlinedatabase⁽¹⁰⁾, der giver offentligheden mulighed for at konsultere og analysere dataene om medlemsstaternes våbeneksport på en brugervenlig måde. Databasen er generelt blevet hilst velkommen som en betydelig forøgelse af gennemsigtigheden i forbindelse med våbeneksport. Den indeholder oplysninger om værdien af, bestemmelsesstedet for og typen af våbeneksporttilladelser og den faktiske eksport fra medlemsstaterne og vil blive ajourført hvert år på grundlag af oplysningerne i årsberetningerne.

Desuden udarbejdede COARM-Gruppen en rådsafgørelse om slutbrugerattester for eksport af håndvåben og lette våben samt ammunition hertil. Afgørelsen blev vedtaget i januar 2021 og bidrager til større konvergens mellem medlemsstaternes våbeneksportpolitikker.

2. Meddelelser om afslag og konsultationer

Den fælles holdning indeholder bestemmelser om meddelelse i forbindelse med afslag på tilladelser. Når en medlemsstat gennemgår en ansøgning om tilladelse til en transaktion, der i det væsentlige er identisk med en, der tidligere er blevet givet afslag på af en anden medlemsstat, fastsætter den fælles holdning en konsultationsproces. Dette sker via COARM-Gruppens onlinesystem. Systemet har allerede vist, at det yderligere støtter åbenheden mellem medlemsstaterne over for specifikke endelige bestemmelseslande og slutbrugere. I 2020 har onlinesystemet bevist sin værdi ved at lette informationsstrømmen mellem medlemsstaterne, navnlig i forbindelse med den globale pandemi, der forhindrede de delegerede i at mødes personligt.

Antallet af afslag, der blev meddelt i 2020, er anført i række d) i tabel A.I i bilaget til denne beretning pr. bestemmelsessted og pr. kategori i listen over militært udstyr; antallet af konsultationer, der er iværksat og modtaget af hver medlemsstat, og antallet af konsultationer pr. bestemmelsessted foreligger henholdsvis i tabel B.I og B.II.

3. Brugervejledning

Brugervejledningen er et centralt instrument, der opsummerer de aftalte retningslinjer for gennemførelse af de operative bestemmelser i fælles holdning 2008/944/FUSP og fortolkningen af kriterierne heri. Den er omtalt i artikel 13 i den fælles holdning. Den blev udarbejdet af COARM-Gruppen og ajourføres regelmæssigt: den seneste ajourføring skete som led i revisionen af den fælles holdning, der fandt sted i 2018 og første halvdel af 2019. I sine konklusioner af 16. september 2019 hilste Rådet den ændrede brugervejledning velkommen⁽¹¹⁾.

Brugervejledningen er primært beregnet på embedsmænd, der udsteder eksporttilladelser, og bidrager dermed i betydeligt omfang og på en pragmatisk måde til konvergens mellem medlemsstaternes våbeneksportkontrolpolitikker og -procedurer. Med henblik på at støtte operationaliseringen af kriterierne i fælles holdning 2008/944/FUSP indeholder vejledningen god praksis, som er udarbejdet af COARM-Gruppen og bygger på national bedste praksis, og der er taget hensyn til input fra andre relevante interessenter, herunder civilsamfundet. Formålet hermed er at få medlemsstaterne til at anvende kriterierne i den fælles holdning mere konsekvent. Dette opnås bl.a. ved at pege på nogle faktorer, der skal tages hensyn til ved vurdering af ansøgninger om eksporttilladelse. Den bedste praksis er til brug for embedsmænd, der udsteder eksporttilladelser, og andre embedsmænd i relevante statslige kontorer og organer. Beslutningsprocessen bygger på disse embedsmænds ekspertise i regionale, juridiske, retlige, tekniske og udviklingsmæssige spørgsmål samt sikkerheds- og militærrelaterede spørgsmål.

Vejledningen er et offentligt dokument, som er tilgængeligt på EU-Udenrigstjenestens websted⁽¹²⁾.

4. Outreachaktiviteter

I artikel 11 i den fælles holdning henstilles det til medlemsstaterne, at de »gør alt for at tilskynde andre stater, der eksporterer militærteknologi eller -udstyr, til at anvende kriterierne i denne fælles holdning«. De intensive outreachaktiviteter, som gennemføres både af EU og af medlemsstaterne hver især, fortsatte i 2020 som vist i tabel D.

⁽¹²⁾ https://eeas.europa.eu/headquarters/headquarters-homepage/8465/arms-export-control_en.

Der har i henhold til afgørelse (FUSP) 2020/1464 og (FUSP) 2018/101 (ændret ved afgørelse (FUSP) 2020/794), som gennemføres af den tyske økonomi- og eksportkontrolstyrelse (BAFA), fundet en række, hovedsagelig virtuelle, bistandsarrangementer sted. Derudover blev der i henhold til afgørelse (FUSP) 2017/915 (ændret ved afgørelse (FUSP) 2020/1134) virtuelt gennemført yderligere regionale outreachaktiviteter, skræddersyede nationale bistandsprogrammer og ad hoc-workshops om individuel bistand til støtte for effektiv gennemførelse og universalisering af våbenhandelstraktaten (yderligere oplysninger om sidstnævnte aktiviteter findes i afsnit II, punkt 2).

5. Politiske dialogmøder

I 2020 blev der holdt politiske dialogmøder med Norge og USA om spørgsmål vedrørende våbeneksportkontrol. Disse politiske dialoger var et forum for frugtbare drøftelser om spørgsmål af fælles interesse såsom eksportpolitikker for specifikke bestemmelsessteder, spørgsmål vedrørende overholdelse og kontrol og våbenhandelstraktaten.

6. Ajourføring af Den Europæiske Unions fælles liste over militært udstyr

EU's fælles liste over militært udstyr omfatter de militære produkter, hvis eksport medlemsstaterne skal give mulighed for at kontrollere, jf. artikel 12 i den fælles holdning. Den er identisk med listen over forsvarsrelaterede produkter i bilaget til direktiv 2009/43/EF.

Da denne beretning omfatter statistikker over eksport af konventionelle våben fra EU's medlemsstater i 2020, omfatter den den fælles liste over militært udstyr vedrørende 2020, som tager hensyn til de ændringer i Wassenaararrangementets liste over ammunition, der blev aftalt på arrangementets plenarmøde i 2019. Denne ajourførte udgave af den fælles liste over militært udstyr blev offentliggjort i *Den Europæiske Unions Tidende* af 13. marts 2020⁽¹³⁾.

7. Våbenmæglervirksomhed

I overensstemmelse med artikel 5 i Rådets fælles holdning 2003/468/FUSP⁽¹⁴⁾ har medlemsstaterne indført særlige ordninger til udveksling af oplysninger om tilladelser til mæglervirksomhed og afslag på ansøgninger herom. Endvidere har de medlemsstater, der kræver, at våbenmæglere indhenter skriftlig tilladelse til at udøve mæglervirksomhed, og/eller som har oprettet et register over våbenmæglere, indført særlige ordninger til udveksling af relevante oplysninger om registrerede våbenmæglere. Oplysninger om EU-medlemsstaternes tilladelser til mæglervirksomhed og afslag på ansøgninger herom findes i vedlagte tabel A.III.

Vedlagte tabel C indeholder detaljerede oplysninger om national gennemførelse af fælles holdning 2003/468/FUSP.

8. Dialog med interessenterne: Europa-Parlamentet, civilsamfundet og erhvervslivet

Den 15. september 2020 drøftede HR/NF Josep Borrell Europa-Parlamentets betænkning om våbeneksport (udarbejdet af ordfører Hannah Neumann) på et plenarmøde i Parlamentet. Dialoger med Europa-Parlamentet om våbeneksportkontrollspørgsmål finder også sted med høring af højtstående embedsmænd fra EU-Udenrigstjenesten. EU-Udenrigstjenesten havde i løbet af 2020 kontakter med Europa-Parlamentets ordfører for våbeneksportkontrol og besvarede et betydeligt antal parlamentariske forespørgsler om våbeneksport.

I overensstemmelse med hidtidig praksis holdt COARM-Gruppen jævnligt møder med ikkestatslige organisationer (såsom Saferworld, Conflict Armament Research osv.). COARM-Gruppen indbød også repræsentanter fra forsvarsindustrien samt fra ICRC, tænketanke, der arbejder med emner vedrørende våbenhandel, og andre interessenter til sine møder.

II. VÅBENHANDELSTRAKTATEN (ATT)

1. Deltagelse i ATT: konferencer af deltagende stater

Som det var tilfældet med tidligere konferencer af deltagende stater, spillede EU og dets medlemsstater en aktiv rolle forud for sjette konference af deltagende stater, der for første gang blev gennemført ved en skriftlig procedure fra den 17. til den 21. august 2020. I alt blev der forelagt 17 procedure- og substansafgørelser til godkendelse ved stiltiende samtykkeprocedure. De deltagende stater var i stand til at vedtage afgørelser om formandskabet for 2021 (Sierra Leone),

⁽¹³⁾ EUT C 85 af 13.3.2020, s. 1.

⁽¹⁴⁾ Rådets fælles holdning 2003/468/FUSP af 23. juni 2003 om kontrol med våbenmæglervirksomhed (EUT L 156 af 25.6.2003, s. 79).

budget og tidsplan og nåede til enighed om oprettelsen af et forum for udveksling af oplysninger om omdirigering, en ny platform til håndtering af konkrete tilfælde af omdirigering, hvilket var et vigtigt mål for konferencen i overensstemmelse med det argentinske formandskabs prioritet om at øge gennemsigtigheden og udvekslingen af oplysninger.

Efter aflysningen af det andet forberedende møde i april 2020 som følge af pandemien besluttede EU at dele sit input til sjette konference af deltagende stater skriftligt. Den 20. maj 2020 blev der sendt en skrivelse med en redegørelse for EU's og dets medlemsstaters holdning, hvori det understreges, at der er behov for gennemsigtig og rettidig rapportering fra de deltagende staters side, og at det er vigtigt at håndhæve ATT's finansielle regler.

En yderligere positiv udvikling omfatter seks nye deltagende staters ratifikation og tiltrædelse, herunder den store våbeneksportør Kina, hvilket EU hilste velkommen i en pressemeddelelse den 7. juli 2020 ⁽¹⁵⁾.

2. EU's ATT-gennemførelsesstøtteprogram i henhold til afgørelse (FUSP) 2017/915, ændret ved Rådets afgørelse (FUSP) 2020/1134

Efter ikrafttrædelsen af ATT i december 2014 og med indtil videre ⁽¹⁶⁾ 110 deltagende stater står ATT fortsat over for udfordringer med hensyn til universalisering og de deltagende staters effektive gennemførelse heraf.

Med henblik på at bidrage til at tackle disse udfordringer vedtog EU et ambitiøst gennemførelsesstøtteprogram for tredjelande (afgørelse (FUSP) 2017/915, ændret ved Rådets afgørelse (FUSP) 2020/1134). Dette program gennemføres af både den tyske økonomi- og eksportkontrolstyrelse (BAFA) og Expertise France. Det yder i øjeblikket bistand til tredjelande som langvarige partnere (samarbejdspartnere omkring køreplanen) og som ad hoc-partnere på deres anmodning med at styrke deres våbenoverførelsessystemer i overensstemmelse med kravene i traktaten. I tabel D findes der nærmere oplysninger om de aktiviteter, der er gennemført inden for rammerne af EU-programmet i 2020.

III. PRIORITEREDE RETNINGSLINJER FOR COARM-GRUPPEN FOR DEN NÆRMESTE FREMTID

COARM-Gruppen fokuserer på gennemførelsen af de resterende mål i Rådets konklusioner af 16. september 2019 om våbeneksport. Dette omfatter udvikling af en lukket database for embedsmænd, der udsteder eksporttilladelser, med adgang til relevante rapporter og oplysninger fra forskellige kilder om bestemmelseslande. Denne database vil bidrage til større konvergens mellem medlemsstaternes afgørelser om våbeneksport.

COARM-Gruppen drøfter også, hvordan rapporteringen om den faktiske eksport kan forbedres med henblik på at gøre dataene i årsberetningerne mere sammenlignelige medlemsstaterne imellem. Der fokuseres på at tage ved lære af god praksis blandt medlemsstaterne.

Desuden overvejer COARM-Gruppen eksportkontroldimensionen af udviklingen inden for EU's forsvar — navnlig den europæiske fredsfacilitet (se nedenfor) og Den Europæiske Forsvarsfond.

Endelig vil COARM-Gruppen fortsat aktivt henvende sig til andre relevante grupper for at skabe forbindelse til beslægtede arbejdsområder, herunder Gruppen vedrørende Varer med Dobbelt Anvendelse og Toldsamarbejdsgruppen. Forbindelserne mellem COARM-Gruppen og de nationale embedsmænd, der beskæftiger sig med håndhævelse af våbeneksportkontrol, styrkes.

IV. BISTANDSFORANSTALTNINGER I FORBINDELSE MED DEN EUROPÆISKE FREDSFACILITET

I 2020 fortsatte forhandlingerne i Rådet om oprettelse af en europæisk fredsfacilitet på grundlag af et forslag fra Unionens højtstående repræsentant for udenrigsanliggender og sikkerhedspolitik med støtte fra Europa-Kommissionen. Den 18. december 2020 nåede Rådet til politisk enighed. Den europæiske fredsfacilitet blev formelt oprettet den 22. marts 2021 med godkendelsen af Rådets afgørelse (FUSP) 2021/50 ⁽¹⁷⁾9.

I henhold til ovennævnte rådsafgørelse blev fredsfaciliteten oprettet til medlemsstaternes finansiering af EU-aktioner under den fælles udenrigs- og sikkerhedspolitik (FUSP) med henblik på at bevare freden, forebygge konflikter og styrke den internationale sikkerhed i overensstemmelse med traktaten om Den Europæiske Union (TEU). Den europæiske fredsfacilitets bistandsforanstaltninger kan bestå af: i) aktioner til at styrke tredjelandes og regionale og internationale organisationers kapaciteter vedrørende militær- og forsvarsanliggender og ii) støtte til militære aspekter af fredsstøttende operationer, der ledes af en regional eller international organisation eller af tredjelande.

⁽¹⁵⁾ https://eeas.europa.eu/headquarters/headquarters-homepage/82304/arms-control-statement-spokesperson-ratification-arms-trade-treaty-china_en.

⁽¹⁶⁾ I april 2021.

⁽¹⁷⁾ Rådets afgørelse (FUSP) 2021/509 af 22. marts 2021 om oprettelse af en europæisk fredsfacilitet og om ophævelse af afgørelse (FUSP) 2015/528 (EUT L 102 af 24.3.2021, s. 14).

KORT BESKRIVELSE AF KATEGORIER PÅ EU'S FÆLLES LISTE OVER MILITÆRT UDSTYR ⁽¹⁸⁾

- ML1 Glatløbende våben med en kaliber på under 20 mm, andre våben og automatiske våben med en kaliber på 12,7 mm (0,50 tommer) eller herunder samt tilbehør som følger og specielt designede komponenter hertil
- ML2 Glatløbende våben med en kaliber på 20 mm eller derover, andre våben eller andet forsvarsmateriel med en kaliber på over 12,7 mm (0,50 tommer), lavetter, der er specielt designet eller modificeret til militær anvendelse, samt tilbehør som følger og specielt designede komponenter hertil
- ML3 Ammunition og tempereringsanordninger som følger samt specielt designede komponenter hertil
- ML4 Bomber, torpedoer, raketter, missiler, andre eksplosive anordninger og sprængladninger samt tilhørende udstyr og tilbehør som følger og specielt designede komponenter hertil
- ML5 Ildkontrol, overvågnings- og varslingsudstyr samt tilhørende systemer, prøve- og indstillingsudstyr og udstyr til modforanstaltninger som følger, der er specielt designet til militær anvendelse, og specielt designede komponenter og tilbehør hertil
- ML6 Landkøretøjer og komponenter
- ML7 Kemiske midler (agents), "biologiske midler (agents)", "kemikalier til oprørskontrol", radioaktivt materiale, tilhørende udstyr, komponenter og materialer
- ML8 "Energimaterialer" samt beslægtede stoffer
- ML9 Krigsskibe (overflade- eller undervandsfartøjer), særligt udstyr til skibe, tilbehør, komponenter og andre overfladefartøjer
- ML10 "Fly", "lettere end luftfartøjer", "ubemandede luftfartøjer" ("UAV'er"), flymotorer og udstyr til "fly" samt hermed beslægtet udstyr og komponenter, der er specielt designet eller modificeret til militær anvendelse
- ML11 Elektronisk udstyr, "rumfartøjer" og komponenter, der ikke er nævnt i andre punkter på EU's fælles liste over militært udstyr
- ML12 Våbensystemer med høj kinetisk energi og tilhørende udstyr og specielt designede komponenter hertil
- ML13 Panser- eller beskyttelsesudstyr samt konstruktioner og komponenter
- ML14 'Specialudstyr til militær træning' eller til simulering af militære scenarier, simulatorer, der er specielt designet til oplæring i brugen af skydevåben eller våben, der er nævnt i ML1 eller ML2, samt specielt designede komponenter og tilbehør hertil
- ML15 Billedudstyr eller udstyr til modforanstaltninger, der er specielt designet til militær anvendelse, og specielt designede komponenter og tilbehør hertil
- ML16 Smedede, støbte eller andre ufærdige produkter, som er specielt designet til genstande, der er nævnt i ML1-ML4, ML6, ML9, ML10, ML12 eller ML19
- ML17 Diverse udstyr, materialer og "arkiver" og specielt designede komponenter hertil
- ML18 'Produktions' udstyr, miljøtestanlæg og komponenter
- ML19 Dirigerede energivåbensystemer, tilhørende udstyr, udstyr til modforanstaltninger og testmodeller og specielt designede komponenter hertil
- ML20 Kryogenisk og "superledende" udstyr samt specielt designede komponenter og tilbehør hertil
- ML21 "Software"
- ML22 "Teknologi".

⁽¹⁸⁾ Den fuldstændige beskrivelse af kategorierne som vedtaget af Rådet den 17. februar 2020 (EUT C 85 af 13.3.2020, s. 1) findes på https://eur-lex.europa.eu/legal-content/DA/TXT/?qid=1584081152567&uri=OJ%3AJOC_2020_085_R_0001.

BILAG

The attached tables contain the following information:

- A.I EXPORTS AND LICENCE REFUSALS PER DESTINATION, PER REGION AND WORLDWIDE
- A.II EXPORTS TO UNITED NATIONS-MANDATED OR OTHER INTERNATIONAL MISSIONS
- A.III INFORMATION ON BROKERING LICENCES GRANTED AND DENIED
- B.I TOTAL NUMBER OF CONSULTATIONS INITIATED AND RECEIVED BY EACH MEMBER STATE
- B.II TOTAL NUMBER OF CONSULTATIONS PER DESTINATION COUNTRY
- C. INFORMATION ON NATIONAL IMPLEMENTATION OF COMMON POSITION 2003/468/CFSP ON THE CONTROL OF ARMS BROKERING AND COMMON POSITION 2008/944/CFSP DEFINING COMMON RULES FOR THE CONTROL OF EXPORTS OF MILITARY TECHNOLOGY AND EQUIPMENT
- D. INFORMATION ON EU OUTREACH ACTIVITIES
- E. INTERNET ADDRESSES FOR NATIONAL REPORTS ON ARMS EXPORTS
- F. EUROPEAN PEACE FACILITY

TABLE A.I

Figures of Table A.I are broken down per Member State, and per EU Common Military List category where (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available)⁽¹⁾; (d) = number of denials (discrepancies may appear between breakdowns and totals due to denials concerning more than one ML category or denials for items other than those appearing in the ML⁽²⁾); and (e) = the number of the criterion of Common Position 2008/944 invoked to support the refusal (the approximate number of times each criterion is invoked is indicated between brackets).

Statistics are compiled differently by each Member State: no uniform standard is used. Consequently, owing to current procedures regarding arms export reporting or data protection legislation, not all countries have been able to submit the same information⁽³⁾.

⁽¹⁾ To make the table more readable, nil values and/or the mention 'not available' are omitted, and empty rows and columns are deleted.

⁽²⁾ In some instances, in accordance with the Common Position, denials issued for items which do not appear on the Common Military List (for example for license applications for transactions of dual-use items where intended military end-use has been identified) are included in the total.

⁽³⁾

- (i) Concerning **Austria**: with regard to items covered by the EU Common Military List, the Austrian law distinguishes between 'war material' (as stipulated in the Austrian War Material Act and Regulation) and 'equipment on the Common Military List not listed as war material' covered by the Austrian Foreign Trade Act. As to the value of actual exports by Military List Category (row c), figures may be inaccurate in particular as such data regarding equipment of the Common Military List not listed as war material is available to the competent authorities only after expiration or full utilisation of the individual export licence. Since some licences granted cover goods of more than one ML category per destination, these licences are counted multiple times, one for every ML category (row a). The total number of licences quoted in this report therefore exceeds the actual number of licences granted.
- (ii) Concerning **Belgium**: the data that Belgium provides for this report are the aggregation of the data of its three regions (the Flemish, Walloon and Brussels-Capital Region) and of its federal government (which is competent for exports by the Belgian armed forces and the Belgian police). Because of differences in data collection and data processing between the competent authorities, Belgium is currently not able to provide data on actual exports (row c).
- (iii) Concerning **Croatia**: data provided includes figures of global and individual export licences. In 2020 there was no export by general licences. As the value of global licences is not visible ('unlimited value') figures will occur only in row c) and not b).
- (iv) Concerning the **Czechia**: rows a) and b) do not include General transfer licences and Global transfer licences pursuant to the Defence Transfer Directive (2009/43/EC), which could cover goods of more than only one ML Category and allow exports to more than only one Member State. In addition to that, some other licences issued cover goods of more than only one ML Category and their value is the total value of all covered goods. Due to this fact, these types of licences are not included in row b). The sums in rows c) are based on information provided by exporters and also contain actual exports made in 2020 based on licences issued in previous years.
- (v) Concerning **Denmark**: with regards to the value listed in rows b) and c) it should be noted, that values listed in row b) 'Value of export licences granted' relates to licences issued according to national legislation, i.e. to third countries. Values listed in row c) 'Value of actual exports' relates to the value of licences issued as global licences (article 6 of the ICT directive) as well as transfers undertaken in accordance with the general licences (article 5 of the ICT directive) and licences issued as individual licences (article 7 of the ICT directive) as well, i.e. actual value of exports within EU and EEA. The Danish currency (DKK) or other currencies are where relevant converted to (EUR) using the common exchange rate.
- (vi) Concerning **Estonia**: licences covering more than one ML category and/or destination are counted multiple times, one for every ML category per country of destination (row total c). The total number of licences quoted in this report therefore differs from the actual number of licences issued.
- (vii) Concerning **Finland**: licences covering more than one ML category and/or destination are counted one for every ML category per destination country. Therefore, the total number of licences presented in this report exceeds the actual number of licences issued. Data on licences issued also includes export licences to UN-Mandated or Other International Missions.
- (viii) Concerning **France**: France requires its defence companies to obtain a licence from the early stages of market prospection. The licence should indicate the potential of the transaction. Any operation, starting from the negotiation stage, requires obtaining a licence: transmission of documentation, demonstrations, participation in calls for tenders, etc. This requirement for transparency and control results in a licenced value (row (b)) that can greatly differ from the value of the final contracts signed and goods actually exported (row (c)).
- (ix) Concerning **Germany**: some licences issued cover goods of more than one ML Category (e.g. one licence for the export of rifles and their ammunition). In reporting in table A.I., each time a licence concerns a ML category, it is counted as one single licence, so the sums in rows a) and column 'Total per destination' do not always reflect the actual numbers of licences granted, but a slightly higher figure (i.e. the number of times a ML category has been affected by a licence for that destination). Germany is not in a position to report the value of actual exports of military goods other than war weapons as no reliable data on this matter is available. In particular, it is not possible to rely on data regarding write-offs from licences that customs authorities gather, because the national or EU lists of military goods and the nomenclature of the Harmonized System used by custom authorities are not congruent. Further, in accordance with rules of the Union Customs Code, there is no reporting requirement for transfers of goods to other EU Member States. This data would therefore lead to an incomplete and unreliable reporting on actual exports of military goods.
- (x) Concerning **Ireland**: values in row (b) relate to individual export licences issued. Values in row (c) relate to actual exports reported by exporters with global licences issued under the ICT directive. As the value of global licences is not always visible ('unlimited value') figures will occur only in row (c) and not (b). Global licences contain multiple destinations and multiple ML categories, with exports to each destination and category counted as a single licence. Values listed in row (a) therefore do not reflect the actual number of licences issued but a slightly higher figure.
- (xi) Concerning **the Netherlands**: as values of global licences cannot always be attributed to individual countries, the value of those global licences has been added to the total value of 'multiple destinations' for the Netherlands. The figures on actual exports reported by the Netherlands are based on information provided by the exporters in 2020, and may reflect exports based on a license issued in a previous year. Although much care has been given to the collection of the data on actual exports, the actual exports figures for 2020 may be higher than the values quoted in this report.

The EU User's Guide stipulates that the value of actual exports only needs to be provided where it is available. With regard to actual exports authorised by EU Member States (row c), it is important to note that Belgium, Cyprus, Germany, Greece and Latvia do not provide these data. No aggregation is therefore reported at the EU level.

With regard to the use of global and general licences notably applied to intra-EU transfers pursuant to Directive 2009/43/EC, it is important to note that the actual value of arms transfers and exports under global and general licences is generally reported by EU Member States. This is however dependant on the Member States' ability to report on actual values (row c) as described above and to possible additional national specificities as explained in footnote 14.

Data are reported in euros and accordingly converted from national currencies for Member States not having the euro as national currency. Please bear in mind the possible exchange rate fluctuations between the data collection at national level, the date of reporting to the EU level and the date of consultation of the data.

It is important to bear in mind that exports to destinations subject to EU arms embargoes comply with the terms, conditions and possible exceptions set out in the decisions imposing such embargoes. The full list and details of embargoes are available at <https://www.sanctionsmap.eu>.

Exports to UN mandated or other international missions are further reported on in Table A.II.

-
- (xii) Concerning **Hungary**: data provided includes figures of general, global and individual export licences. Transfers of military equipment to Hungarian forces deployed in various missions (table AII) are not considered regular foreign trade transactions.
 - (xiii) Concerning **Poland**: the actual values of transfers, provided in the row (c), are related to the individual, global and national general licences. Data from rows (a), (b) and (c) do not include temporary transfers.
 - (ivx) Concerning **Portugal**: data provided includes figures of export transactions (definitive and temporary) covered by general, global and individual export licences. Some licences cover goods of more than one ML category and destination, so each time a licence concerns an ML category or destination, it is counted as one single licence, so the sum in row 'Number of Export Licences' does not always reflect the actual number of licences granted, but a slightly higher figure. As the value of General and Global licences is not always visible ('unlimited value') figures will occur only in row (c) and not (b). Data provided does not include figures of export transactions of civilian firearms (for personal protection, hunting, sporting).
 - (vx) Concerning **Romania**: data provided includes figures of general, global and individual export licences. Global and general licences cannot always be attributed to an individual military list category ML or an individual country. Therefore, the figures on number of licences issued (row a) could be slightly higher.
 - (xvi) Concerning **Slovakia**: data provided includes some licences which cover more than one ML category. Therefore values in row (a) are thoroughly recorded, but values in row (b) and row (c) can have slightly different values. Exhibitions and presentations: India, Malaysia and United Arab Emirates. Remark to South Sudan: End User is Mines Advisory Group — spare parts for demining system.
 - (xvii) Concerning **Slovenia**: data provided includes figures of general, two (2) global export licences (for ML 1 and ML 3) and individual export licence. The value of some licences was 0, because weapons and military equipment/defence-related products were exported for the purpose of testing and evaluation. Two Global transfer licences were granted to Slovenian companies for a period of three years, to trade with ML3 and ML1 goods with EU countries, one in year 2018 and one in year 2020.
 - (xviii) Concerning **Sweden**: the Swedish krona is converted to euro using the average exchange rate for 2020 (10,4867). Licences covering more than one ML category and/or destination are counted multiple times, one for every ML category per country of destination. The total number of licences quoted in this report therefore exceeds the actual number of licences issued.

TABLES SETTING OUT EXPORTS AND REFUSALS PER DESTINATION, PER REGION AND WORLDWIDE

EU ARMS EXPORTS PER DESTINATION IN 2020

Key: (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available); (d) = total EU number of licence refusals (small discrepancies may appear between breakdowns and totals due to refusals concerning more than one ML item or refusals for items other than those appearing in the ML); (e) criteria numbers on which refusals are based (the approximate number of times each criterion is invoked is indicated in brackets)

EU ARMS EXPORTS PER DESTINATION IN 2020

Key: (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available); (d) = total EU number of licence refusals (small discrepancies may appear between breakdowns and totals due to refusals concerning more than one ML item or refusals for items other than those appearing in the ML); (e) criteria numbers on which refusals are based (the approximate number of times each criterion is invoked is indicated in brackets)

EU ARMS EXPORTS PER REGION IN 2020

Key: (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available); (d) = total EU number of licence refusals (small discrepancies may appear between breakdowns and totals due to refusals concerning more than one ML item or refusals for items other than those appearing in the ML); (e) criteria numbers on which refusals are based (the approximate number of times each criterion is invoked is indicated in brackets)

EU ARMS EXPORTS PER REGION IN 2020

Key: (a) = number of licences issued; (b) = value of licences issued in euros; (c) = value of arms exports in euros (if available); (d) = total EU number of licence refusals (small discrepancies may appear between breakdowns and totals due to refusals concerning more than one ML item or refusals for items other than those appearing in the ML); (e) criteria numbers on which refusals are based (the approximate number of times each criterion is invoked is indicated in brackets)

TABLE A.II

Exports to United Nations-mandated or other international missions in 2020 ⁽⁴⁾, ⁽⁵⁾, ⁽⁶⁾Destination Country: **Afghanistan**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	OCHA CO (Afghanistan)	Cross-country vehicles with special protection
Germany	UNHCR CO (Kabul)	Armoured windshields
Hungary	HDF NSE Mazar-e Sharif HDF NSE Herat	Body armours with ceramic plates, kevlar helmets, CISCO routers, BDU-s Various kinds of ammunition, pistols, thermal sights, grenades, ceramic plates, 9505 iridium phones, NBC clothes, laser sights, carbines, night vision devices, binocular, military knives, Kevlar helmets, BDU-s, camouflage net sets
Portugal	NATO Resolute Support Mission	Handguns, sub-machine guns, assault rifles and components (ML1), Ammunition (ML3), Fire control, and related alerting and warning equipment (ML5), Equipment and communication systems (ML11), Software (ML21)

Destination Country: **Belgium**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Denmark	NATO HQ + NATO HQ C3S	Software

Destination Country: **Burkina Faso**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	The World Bank	Cross-country vehicles with special protection and parts

⁽⁴⁾ The following Member States submitted a nil report: Belgium, Bulgaria, Croatia, Cyprus, Czechia, Estonia, France, Italy, Latvia, Lithuania, Luxembourg, Malta, Poland, Romania, Slovakia, Slovenia, Spain, and Sweden.

⁽⁵⁾ Regarding **Spain**: There have not been final exports of equipment accompanying UN peace missions abroad. All the equipment has to be reimported to Spain. The Spanish legislation allows, without a licence, temporal exports accompanying the Spanish Armed Forces. For security reasons this control belongs to the Spanish Ministry of Defence.

⁽⁶⁾ Regarding Hungary: description of the goods may include non-ML items.

Destination Country: **Bosnia and Herzegovina**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Greece	ALTHEA Mission	6 M4 cal. 5,56
Hungary	HDF EUFOR Sarajevo	BDU-s, C-IED materials, CISCO routers, protective gears, NBC clothes

Destination Country: **Cambodia**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations Assistance Mission to the Khmer Rouge Trials (UNAKRT)	Ammunition for revolvers and pistols

Destination Country: **Cameroon**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	IOM	ML13: Tactical vests and helmets
Germany	UNICEF and UNOCHA	Cross-country vehicles with special protection

Destination Country: **Central African Republic**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	IOM	ML13: Tactical vests and helmets
Germany	United Nation Multidimensional Integrated Stabilization Mission (MINUSCA)	Ammunition for rifles, pistols, revolvers and shotguns; parts for pistols; ballistic protection plates;
Portugal	UE mission — EUTM RCA United Nations Multidimensional Integrated Stabilization Mission (MINUSCA)	Handguns, sub-machine guns, assault rifles and components (ML1), Grenade launchers (ML2), Ammunition (ML3), Hand grenades and other explosive devices (ML4), Fire control, and related alerting and warning equipment (ML5), Ground vehicles and components (ML6), UAV (ML10), Equipment and communication systems (ML11), Protection equipment (ML13), Imaging or countermeasure equipment (ML15), Containers specially designed or 'modified' for military use (ML17)

Destination Country: **Chad**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	UNDP, IOM	ML13: Tactical vests and helmets

Destination Country: **Democratic Republic of Congo**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations Organization Stabilization Mission (MONUSCO)	Rifle protection body armour plates
Germany	The World Bank Group	Cross-country vehicles with special protection and parts

Destination Country: **Germany**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Denmark	NAEWF E-3A Components, Hangar 2 East, 52511 Geilenkirchen NATO Air Base	Software
Ireland	EU Battle Group Exercise	ML3 small arms and ammunition

Destination Country: **Guinea-Bissau**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	United Nations Integrated Peacebuilding Office in Guinea-Bissau (UNIOGBIS)	Ammunition for revolvers and pistols

Destination Country: **Honduras**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Germany	The World Bank Group	Cross-country vehicle with special protection and parts

Destination Country: **Iraq**

Exporting Member State	United Nations-mandated or other international missions	Description of goods
Finland	UNDP	ML13: Tactical vests and helmets
Germany	European Union Advisory Mission (EUAM)	Cross-country vehicles with special protection and parts
Hungary	NATO Mission Besmayah HDF HTSC Erbil	Body armours with ceramic plates, kevlar helmets, BDU-s TCE/B phones, TCE-621B, KOI-18, military radio modules with software, body armours with ceramic plates, pistols, carbines, laser sights, thermal sights, weapon parts, rifle scopes, BDU-s

(*) Poland first adopted legislation covering brokering activities in the Act of 11 December 1997 on administrating of foreign trade in goods and services and transfers of special goods (Journal of Laws 1997, No 157, item 1026).

TABLE D

Information on EU outreach activities**Adaption of the projects to the COVID-19 pandemic**

The COVID-19 pandemic, with social distancing rules and travel restrictions, had a direct impact on the cooperation with the project partner countries. Until then, all action plans included in-person activities. Since March 2020, in-person meetings and activities were no longer possible.

BAFA and Expertise France therefore decided to prepare online activities. They checked if partner countries were open to online cooperation, and if partner countries had proper IT-means to start engaging digitally.

The project implementers developed a new concept, called 'open webinars'. At these webinars, they liaised with partner countries and different stakeholders on — for example — the state of play of ATT-related challenges. They also re-worked the 4th Meeting of Experts and the Train-the-Trainer course, to allow for a remote engagement.

From now on, BAFA and Expertise France will offer both in-person and digital activities, whichever are best fit for purpose. This mix broadens the range of activities, and allows for more flexibility.

1. Council Decision (CFSP) 2017/915, amended by Council Decision (CFSP) 2020/1134, on Union outreach activities in support of the implementation of the Arms Trade Treaty**Togo — Third and Fourth Roadmap Activities**

Lomé, Togo, 6-9 January 2020

In 2019, partners of the ATT- OP II in Togo already organised two activities on the Treaty basics and on annual reporting obligations, as well as on interagency cooperation and transit/trans-shipment controls.

The objective of the third activity was to keep on working on the draft law, based on an exchange of expertise and experiences on legislations on arms trade, as well as operationally initiating the elaboration of the national control list(s). The objective of the fourth activity was to capitalise on the outcomes of the third one for elaborating first drafts, on the basis of propositions of structures prepared by the contributing European experts, of the regulations that would implement the future law. Remote assistance was foreseen to take place for consolidating the drafts once the partner has amended it on the basis of the outputs of the two workshops.

The partner-country and the participants expressed, formally and informally, their high appreciation for the design and the delivery of the activities. Togo's national authorities expressed their strong hope to continue the collaboration with the EU in the field, notably for accompanying the implementation of the forthcoming national legal framework. The National Commission for the fight against the proliferation of light weapons (CNLPAL) committed to fine tune the draft law and further elaborate, in parallel, the drafts of the implementing regulations (control list and decree establishing the modalities of the controls on the arms) as identified and initially elaborated in the course of these activities.

Costa Rica — Sub-regional Workshop

San José, Costa Rica, 22-23 January 2020

This Sub-regional Workshop, organised by BAFA, was the last out of three sub-regional workshops for the Latin American region in the current project phase; the first one had taken place in Iquitos, Peru (May 2018) and the second one in Leticia, Colombia (April 2019).

The Sub-regional Workshop gathered a total of 60 participants from the different authorities involved in ATT implementation in Costa Rica, Colombia, Panama, Belize, Haiti, Peru and Trinidad and Tobago. While the majority of participants came from Costa Rica, Panama and Colombia, also a smaller number of participants from Peru, Belize, Haiti and Trinidad and Tobago had been invited (following a proposal of Costa Rica), which allowed to extend the perspective from Central America into both geographical directions: South America and the Caribbean (CARICOM states).

The agenda focused on the exchange of experiences with ATT implementation and best practices among the invited countries, and included a number of roundtable discussions and presentations, as well as cases shared by the invited countries.

The activity was supported by five international experts from Chile, Mexico, Uruguay, CARICOM IMPACS and the Small Arms Survey.

Jamaica — Third and Fourth Roadmap Activities

Kingston, Jamaica, 27-30 January 2020

BAFA organised the Third and Fourth Roadmap back to back. Jamaica has been a partner country since its first phase.

The activity was attended by 21 representatives from the Ministry of Foreign Affairs and Foreign Trade, the Ministry of National Security, the Jamaica Defence Force, the Office of the Commissioner of Police, the Firearm Licensing Agency, the Office of Director of Public Prosecutions, the Attorney General Chambers, the Jamaica Civil Aviation Authority, the Jamaica Shipping Authority, the Jamaica Trade Board Limited, as well as the Ports Security Corps Ltd. of Jamaica.

Each day focused on one or two particular aspects of ATT implementation. Customs officials participated on the second and third day, prosecutors on the third day and industry representatives on the fourth day. An interactive and practical way of working included presentations by Jamaican authorities, as well as case studies, interactive exercises and roundtable discussions.

The activity was supported by four international experts from Germany, Sweden and the United Kingdom.

Philippines — Fifth Roadmap Activity and Second Sub-Regional Seminar

Manila, Philippines, 28-29 and 30-31 January 2020

Sixteen months after the entry into force of the Implementing Rules and Regulations giving full effect to the Strategic Trade Management Act (STMA), the fifth roadmap activity for the Philippines and second sub-regional seminar took place in Manila. The events were organised jointly with the Office of the Special Envoy on Transnational Crime. Although the Philippines has not ratified the ATT yet, its national control system on strategic trade (founded on the 2015 Strategic Trade Management Act, its Implementing Rules and Regulations, and the 2013 Comprehensive Firearms and Ammunitions Act -CFAA- and its Implementing Rules and Regulations) implements, for the most part, the principles and the obligations contained in the Treaty.

The fifth activity was dedicated to an exchange of experiences and views among Philippine and European experts on the implementation of the national legal framework and identification of potential amendments for ensuring that the system is in full compliance with the provisions of the ATT. It allowed for identifying possible adjustments aimed at clarifying the role and competences of those authorities involved in the management of controls.

The second sub-regional seminar was attended by Philippine, Cambodian, Malaysian and Thai delegations and consisted in an exchange of expertise on incentives for countries of the ASEAN region for ratifying the ATT and implementing it with the support of all the stakeholders concerned by the controls. The participants elaborated together a document addressing the most frequently asked questions in relation to both ratification and implementation of the Treaty. The seminar allowed for sharing good practices of control of the arms transfers and highlighting gaps in the legal frameworks of the participating countries with regard to the expected full implementation of the ATT provisions in the national legislations. It also helped creating the necessary environment for working together on the identification and addressing of the challenges in common faced by the authorities of ASEAN countries in the ratification and implementation process of the ATT. These events were met with high levels of satisfaction from all national and regional actors, who committed to continuing their efforts to promote implementation of the ATT in their countries. To this end, the continuation of European support in the future was generally hoped for.

Republic of Côte d'Ivoire — Fourth Roadmap Activity on Interagency Coordination

Abidjan, Côte d'Ivoire, 12-13 February 2020

Accompanied by Expertise France throughout the second phase of the EU ATT OP, the Republic of Côte d'Ivoire is committed to implementing a roadmap which was defined following a visit by experts to Abidjan in 2018. This document provides in particular for the strengthening of coordination between the administrations involved in the control of conventional arms transfers, the strengthening of the national legislative and regulatory apparatus, and the training of enforcement agents.

Expertise France organized its fourth workshop in Côte d'Ivoire, in cooperation with the national point of contact, the National Commission on Small Arms and Light Weapons (ComNat-ALPC). Held in Abidjan, this workshop brought together 21 representatives of the main Ivorian ministries involved in arms transfer controls as well as experts from the High Authority of Import Control of Arms and their Use (Burkina Faso), Conflict Armament Research and the French Ministry of the Interior.

The speakers shared advice and experiences with the attendees on topics such as: the progressive implementation of the provisions of the ATT to strengthen a national arms transfer control system; the work of licensing and enforcement officials in arms transfer controls (from the entire license application process to field checks, post-authorization monitoring and cases of noncompliance with the regulations); the contribution of the ATT to the fight against the illicit trade and the diversion of conventional arms.

The ComNat-ALPC expressed its interest in receiving further assistance from the EU.

Guyana — Ad hoc Activity

Georgetown, Guyana, 12-13 February 2020

The workshop on the 'reinforcement of the national capacities in the management and enforcement of international arms transfers' was an ad hoc event organised on the demand of Guyana by its Ministry of Public Security and EF.

Although Guyana is a State Party to the ATT since its entry into force in 2014, its national control system on conventional arms trade is not fully in line with the principles and provisions contained in the Treaty. This event was the first national event in relation to arms transfer controls.

For this first event, Guyana expressed the wish to exchange experiences and expertise with European experts on several topics and to confront ideas and opinions on the enhancement of the structure and contents of the national legal framework with a view to fully implement the Treaty and make use of the Model Law developed by the CARICOM.

The EU Delegation in Guyana was associated to the event and provided an opening statement on the first day.

Debates and discussions at technical level demonstrated the commitment of the Guyanese authorities for initiating a process aimed at consolidating its transfers control system and fully implementing the Treaty.

The event allowed for sharing international best practices on the control of the arms transfers and highlighting gaps in the current legal framework of Guyana with regard to the expected full implementation of the ATT provisions in the national legislation, and with the support of the regional works on that matter, notably the CARICOM Model Law for implementing the ATT. It also helped to create the necessary environment and build upon confidence, for possibly taking up the possibility for Guyana to benefit from a longer-term partnership with the EU, in the framework of the EU ATT OP. The Minister of Public Security and the participants to the workshop expressed a strong interest for such a collaboration in the future.

Peru — Third Roadmap Activity

Lima, Peru, 25-26 February 2020

The Third Roadmap Activity for Peru was titled 'Bilateral Meeting Peru — Costa Rica- Exchange of Experiences and Best Practices', and was attended by a delegation from Costa Rica. Both Peru and Costa Rica have been long-term partners since 2014.

The workshop, organised by BAFA, was attended by 33 participants, among them 25 representatives from the Ministry of Foreign Affairs, Ministry of Defence, SUCAMEC, National Police, National Intelligence Agency, Customs as well as the Ministry of Justice and Human Rights of the Republic of Peru. The eight additional participants from Costa Rica represented the Ministry of Foreign Affairs, Ministry of Public Security, Ministry of the Presidency, Ministry of Finance as well as the Judicial Investigations Agency.

The main objective of the bilateral meeting was to encourage the exchange between both countries about the progress made and lessons learnt with ATT implementation. The international expert team included four experts from Costa Rica, Mexico and Spain.

Burkina Faso — Fourth Roadmap Activity on ATT communication

Ouagadougou, Burkina Faso, 25-26 February 2020

The national point of contact for the ATT matters in Burkina Faso chose to dedicate this fourth roadmap activity, with Expertise France, to journalists and communication officials (each equally represented), since they are considered the best relay to explain and to promote, to the general public, the objectives of the ATT as well as the steps taken by the authorities to implement its provisions in Burkina Faso.

Hence, the purpose of the workshop was to provide the participants with relevant information so that they can then write and talk, with more knowledge, about the ATT and its application by the Burkinabe authorities.

Overall, the participants to the workshop received accurate and comprehensive answers to all their queries on topics related to the ATT and arms transfer controls.

Comprehensive information on the ATT was shared with the participants, including regarding the adoption process of the Treaty, provisions, challenges, institutions and subsidiary bodies involved, and complementarities with other instruments (e. g. the UN Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in SALW, the International Tracing Instrument and the ECOWAS Convention on SALW, their Ammunition and Other Related Materials).

Furthermore, classified information and transparency in conventional arms transfers, notably the possibility for a Government to withhold commercially sensitive and/or national security-related data but also to reveal some elements as part of transparency efforts (such as with the annual report to the ATT Secretariat on exports and imports of conventional arms) were raised and debated openly.

Lastly, participants exchanged their thoughts and analyses regarding major trends in international arms transfers and the universalization of the ATT.

Cambodia — Third Roadmap Activity

Phnom Penh, Cambodia, 26-27 February 2020

The third Roadmap Activity for Cambodia was the first activity conducted with the new focal point from the Cambodian Ministry of Interior. Welcoming remarks were made by the EU Delegation, the German Embassy and the new focal point from the Cambodian Ministry of Interior. The BAFA outreach team presented the scope and history of the project, as well as the status quo of the ATT. The Cambodian Ministries of Interior and National Defence presented a progress report. International experts gave presentations on the obligations of the ATT.

Presentations were made on transit, trans-shipment and on regional cooperation in Southeast Europe, and there were case studies on transit. The workshop closed with a presentation on possible steps towards full ATT implementation, and recommendations for the preparation of the ratification. The workshop was organised by BAFA, and was supported by four experts from Albania, Croatia, the Netherlands and Sweden.

Cameroon — Fourth Roadmap Activity on Enforcement Controls

Yaoundé, Cameroon, 11-12 March 2020

In the course of its ongoing cooperation with the EU, Cameroon expressed an intent to design training activities specifically aimed at border security personnel. A first workshop was organised jointly with the Ministry of External Relations of the Republic of Cameroon, with the contribution of the Autonomous Port of Douala and the Directorate General for Customs of the Ministry of Finance, in March 2020.

This fourth activity was dedicated to the enforcement of controls on international arms transfers by frontline personnel. It consisted in exchanges of experiences between national authorities on the management of the risks of diversion of international arms transfers to illicit trafficking, in accordance with the ATT, and it took also the form of a table-top exercise and a visit to the facilities of the Autonomous Port of Douala.

During the two days of the activity, the participants were able to exchange on the roles and competences of the different national ministries and agencies involved in the management of controls in international arms transfers, to perform simulations of scenarios re-requesting interagency cooperation, and to exchange with European experts on arms detection techniques at borders.

Several thematic discussions, in plenary sessions or through bilateral talks, gave the opportunity to identify areas for improvement of the national arms transfer control system and of the cooperation with European and other international partners.

The event met high levels of satisfaction from all stakeholders. Strong expectations were formulated by the national actors for continuing the collaboration with the EU, with a view to consolidating Cameroon's implementation and enforcement of controls over international arms flows.

Peru, Colombia — Online Activity

Virtual Meeting, 25-27 August 2020

The event, organised by BAFA, was initially planned as a bilateral one with long-term partner Peru. At Peru's request, it was agreed that stakeholders from Colombia (also a partner country) were invited as well.

The event focussed on general implementation of the Arms Trade Treaty from both a legal and practical perspective. Furthermore, the topic of classification and typology of conventional arms and ammunition, as well as the general importance of the role of a national control list were addressed. The seminar highlighted the relevance of implementing Articles 6, 7, 15, and 16 of the ATT. Peru's and Colombia's next steps regarding the implementation of the Arms Trade Treaty were identified. Approximately, 60 state officials from relevant authorities attended the activity (30 officials from Peru, and 30 from Colombia).

The activity was supported by three experts in the field of export controls from Mexico, Peru, and Costa Rica, and was organised by BAFA.

Peru, Ecuador — Online Activity

Virtual Meeting, 5-6 October 2020

The focus and content were developed in cooperation with long-term partner country Peru. Peru also proposed to invite participants from its neighbouring country Ecuador, which is not yet a signatory state of the ATT and had not participated to any former outreach activity in the framework of the ATT Outreach Project. In this way, the bilateral cooperation between Peru and Ecuador could be strengthened, and the ATT could be promoted as a valuable instrument to control arms trade to this non-signatory state.

The online event mainly focused on the challenge to prevent and combat illicit arms trade across borders. Approximately 75 Peruvian state officials and 30 Ecuadorian state officials from relevant authorities attended the workshop.

The activity was supported by three experts in the field of export controls from Peru, Colombia, and Costa Rica, and was organised by BAFA.

Republic of Moldova — Ad hoc Assistance Workshop

Virtual Meeting, 11-12 November 2020

In 2019, the Republic of Moldova requested ad hoc assistance. Initially, an in-person event was planned for the beginning of 2020, but due to the COVID-19 pandemic, the event was turned into an online meeting.

In 2019, the Republic of Moldova updated its national control list with regard to the EU Common Military List from 2016. In order to close the remaining gaps and prepare a new update, the focus of this online workshop was placed on the harmonization process of the Moldovan national military list with the EU Common Military List. Additionally, the event covered topics related to risk assessment and risk management. Overall, 16 participants from the Republic of Moldova attended the event on both days, among them representatives of the Ministry of Foreign Affairs and European Integration, Public Services Agency, Ministry of Internal Affairs, Customs Service, Ministry of Economy and Infrastructure, Security and Intelligence Service as well as the Ministry of Defence.

The activity was supported by an expert in the field of export controls from Lithuania, and was organised by BAFA.

Georgia — Online Activity

Virtual Meeting, 17-19 November 2020

Georgia became a partner country in the first project phase, and continued its cooperation within the second phase.

Georgia recently restructured its licensing department. In this regard, the partner country aims to establish a sound ICP system as well as to enhance their outreach to industry approach. In addition, they plan to close possible gaps in their legislation regarding the control of civilian and commercial weapons and the regulation of cold weapons. This seminar set the objective to inform the participants from the licensing authority on the above mentioned topics and to provide them with the opportunity to have their respective questions answered in order to facilitate the process on implementing the foreseen changes and updates in Georgian export control system. In total, eight licensing officials of the Georgian Ministry of Defence, the licensing authority, attended the event on all three days and engaged in lively discussions.

Through the involvement of the head of departments and the heads of divisions, further progress might be feasible i.e. with respect to updating the legislation and the control list to include the latest developments of the Georgian licensing system.

The seminar facilitated interactive discussions among participants and EU experts. Translation into Georgian and English was provided.

The activity was supported by six experts in the field of export controls from the Czechia, Germany and Sweden, and was organised by BAFA.

Jamaica — Online Activity

Virtual Meeting, 19 November 2020

The first meeting of the Long-term Assistance on the establishment of a control list for Jamaica was conducted online. Jamaica has been a long-term partner country since 2014.

Overall, 14 representatives from different Jamaican authorities participated in the workshop. The workshop kicked off with key statements from Jamaican stakeholders. The current state of play of strategic arms trade control legislation in Jamaica was presented and the goals to be achieved during the Long-term Assistance were highlighted. Subsequently, the experts continued by giving presentations about the historic background of strategic trade control and detailed presentations about the EU Military Goods List and the EU Dual Use List.

The meeting was concluded by a roundtable discussion among all the participants and the experts to discuss the way ahead to advance national ATT implementation in Jamaica and the work on the national control list. The Jamaicans seem to be still unsure which way their future control list should look like and if it is the most suitable option to accept the European model or to do further research on other possible models of control lists. Furthermore, also the question which agency will eventually act as the main responsible agency for export control and for issuing export licenses has still to be answered. It was agreed that the Jamaican focal points would come back to BAFA once they had reached more clarity on these fundamental topics.

The activity was supported by two experts in the field of export controls from Sweden, and was organised by BAFA.

Philippines — Online Activity

Virtual Meeting, 27 November 2020

On 27 November 2020, the partners in the EU P2P Outreach Programme II proposed to organize a national webinar for the Philippines stakeholders of arms transfers controls, supplementary to the activities already implemented in the framework of the Programme roadmap.

With this webinar, the Philippines, represented by the Office of the Special Envoy on Transnational Crime — Office of the President (OSETC), was interested in disseminating updated information on the state-of-progress of its ratification efforts of the ATT and on the outcomes of the 6th Conference of the States Parties of the Treaty.

The OSETC presented a 'Frequently Asked Questions' publication on arms transfers control and the ATT produced in cooperation with the EU P2P implementers. The FAQ publication addresses not only the decision makers but also the administrations, the industry and the civil society. Then, experts reported on the outcomes of the 6th Conference of the ATT States Parties and the state-of-progress of the ratification of the ATT by the Philippines.

The webinar format has met success and satisfaction of all stakeholders of this event.

Cameroon — Online Activity

Virtual Meeting, 27 November 2020

As a complement to the activities planned in the roadmap established between Cameroon and the EU, an online event has been organised within the framework EU P2P Outreach Programme II on 27 November 2020.

While the country was determined to put in place transfer management mechanisms that involve all government stakeholders, particularly in the area of transfer authorizations, it had established a coordination platform for these actors, called the SYNTIA platform.

The webinar was designed with the aims of familiarising Cameroonian government actors with practices of dematerialization of licensing procedures for arms transfers under the ATT and exchanging between national and European experts on the projects and development perspectives of the SYNTIA platform as a mechanism for the management of arms transfers.

Chile — Online Activity

Virtual Meeting, 3, 10 and 15 December 2020

The activity focused on instruments to prevent, detect and fight diversion and illicit trafficking, from a practical and operational perspective, and thereby addressed one of the underlying motives why the ATT had been created. The agenda topics had been developed in cooperation with different Chilean authorities composing the Coordination Group for the Prevention of Illicit Arms Trafficking. The online workshop, which was split into three sessions of around 2 hours, was attended by a total of up to 243 participants from various Chilean authorities.

The participation from the Chilean side was not only numerous, but also very active. In this way, the activity certainly contributed to further awareness raising about the importance of controlling arms transfers in accordance with the ATT obligations among the various involved authorities. Moreover, experience with practical instruments to counter diversion and illicit arms trafficking was shared and discussed.

The activity was supported by six experts in the field of export controls from the United Kingdom, Colombia, Spain, and from Small Arms Survey; and was organised by BAFA.

ATT Thematic Webinars

28 October — 23 November — 16 December 2020

Due to the constraint imposed by the pandemic, Expertise France proposed to launch a series of open webinars to introduce and give the possibility to discuss topical issues of the arms transfers control and implementation of the Arms Trade Treaty that can be met by the programme's partner countries.

Each month, experts that actively contribute to the implementation of the programme as well as national and international officials, technical experts and civil society organizations' representatives are invited to share their experience through online dialogues.

The first three webinars dealt with the following topics:

- The 'ATT annual reporting: obligation, facts and figures, templates and instruments of assistance'. The aim was to present and confront experiences about the implementation of the ATT annual reporting obligation, the challenges met and support made available to the States Parties, as designed by the Working Group on Transparency and Reporting.
- The 'risks of diversion of arms transfers and their management: before, during and after transfers'. The objective of the webinar was to provide information and raise awareness on the risks of diversion at the different stages of the arms transfers as well as the good practices that can prevent such diversion to happen or mitigate its consequences.
- The 'Controlled arms under the ATT: new relevant technologies and equipment, updates of the international lists'. The purpose of the webinar was to present the most recently developed technologies in weapons and military equipment that could be controlled in accordance with the ATT and to discuss the definition and updating processes of international control lists, specifically emphasising the best practices developed from the Wassenaar Arrangement.

Between 40 and 60 participants actively interacted at each webinar and dialogued with the field experts at this occasion. The event materials and records have been shared publicly on the Expertise France's website.

2. Council Decision (CFSP) 2018/101, amended by Council Decision (CFSP) 2020/794, and Council Decision (CFSP) 2020/1464 on Union outreach activities in support of the implementation of the EU Outreach Project on the Promotion of Effective Arms Export Controls (COARM)

Bosnia and Herzegovina, Republic of North Macedonia and Ukraine — Study Visit to Slovakia

Bratislava, Slovakia, 5-6 February 2020

The study visit aimed at facilitating the exchange on national export control practices. It was organised by BAFA, in cooperation with the Financial Directorate of the Slovak Republic.

A total of 11 representatives from Bosnia and Herzegovina, North Macedonia and Ukraine attended the event.

The aim of this activity was to provide participants with practical insights into the export control systems and customs procedures of an EU Member State, including risk management at the point of entry, but further also to provide a platform for information exchange on the respective national processes.

The Study Visit was supported by two EU experts from Croatia and Germany.

South Eastern Europe Experts' Meeting

Brussels, Belgium, 19 February 2020

The Experts' Meeting for partner countries from South Eastern Europe was organised back-to-back with a regular COARM Working Group Meeting in Brussels, Belgium.

It aimed to inform the COARM Working Group about activities implemented under the Council Decision (CFSP) 2018/101 for South Eastern European partners, such as regional and individual assistance workshops and study visits. Moreover, the objective was to give the partner countries the possibility to share their experiences within the project and to present their lessons learnt with view on the next project phase.

11 delegates from Albania, Bosnia and Herzegovina, Kosovo⁽⁹⁾, Montenegro, North Macedonia and Serbia attended the event and presented the state of play of their respective export control system and their focus of cooperation with the EU with respect to the implementation of the EU COARM Outreach Project IV.

Members of the COARM Working Group attended the event, and jointly discussed the progress and the topics of interest for the partner countries for future events.

This meeting was organized by BAFA, and was supported by two EU experts from the Netherlands and the Czechia.

Cross-regional Workshop for Central Asia, Eastern Europe and Caucasus

Bishkek, Kyrgyzstan, 26-27 February 2020

This Cross-regional Workshop was the second regional activity for the Central Asian partner countries under the current COARM Outreach Project. The activity was organized by BAFA.

37 representatives from Armenia, Belarus, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Turkmenistan and Uzbekistan attended the event. The German Embassy and the EU Delegation to Kyrgyzstan participated.

The first day begun with a presentation of the current status of the COARM Outreach Project. Following this, the attendees from the eight participant countries gave presentations on their national approaches in the area of export control for conventional arms. After a session about risk assessment and risk management from a licensing perspective, the day concluded with a session on transit and trans-shipment.

The second day started with a presentation about the EU Common Military List, followed by presentations of the countries on their national control lists. The second half of the day addressed inter-agency cooperation from EU MS perspective. The last session condensed the general requirements for effective arms control systems and regional cooperation. The activity ended with a round table discussion that serve to draw conclusions and provide feedback about the event as well as to identify topics to be tackled at future events.

The Workshop was supported by five EU experts from the Czechia, Germany, Greece, Latvia and Lithuania.

⁽⁹⁾ This designation is without prejudice to position on status, and is in line with UNSCR 1244(1999) and the ICJ Opinion on the Kosovo Declaration of Independence.

Final Assessment Event

Virtual Meeting, 25 November 2020

On 25 November 2020, the Final Assessment Event for the ending fourth phase of the EU Outreach Project on the Promotion of Effective Arms Export Controls, based on the Council Decision (CFSP) 2018/101, took place. It was organised by BAFA. Due to the Covid-19 pandemic, the event was organised online.

The objective of this meeting was to evaluate and summarise the results, the progress and the challenges of the activities implemented during the fourth project phase on the one hand, as well as to encourage a discussion with all the participants about the upcoming fifth project phase on the other hand.

Overall, 63 participants from 17 partner countries, EU institutions and EU Member States as well as EU experts attended the event. Since every region involved in the project was represented by at least two countries, there was a good basis to share different experiences.

During the Final Assessment Event, presentations on lessons learned, current challenges and proposals for the follow-up project were provided by partner countries' representatives of the different project regions, EU experts and BAFA, which facilitated both an assessment of the ending project and a preview to the coming project from different angles. The meeting ended with a plenary debate during which all the participants had the opportunity to join the floor.

Before the event, the partner countries had been asked to complete a questionnaire regarding their specific national experience, existing challenges and ideas for further cooperation within the project, which complemented the feedback shared during the Final Assessment Event. Moreover, BAFA had shared an Implementation Summary containing a detailed overview of the project and the activities of the fourth phase in the run-up to the virtual meeting with all the registered participants.

The common understanding of the participants was that the continuation of the project, with virtual formats for the moment, was very welcome to ensure the continuity of the cooperation. The discussions proved the great interest of the partner countries in this project and demonstrated that even though each country eventually faces its own individual situation, the exchange of good practices is highly valued and beneficial for all.

Both the outcomes of the questionnaire and the proposals brought up by the partner countries during the Final Assessment Event will represent a good basis for BAFA to resume contact with the respective focal points and proceed with the planning of activities under the new Council Decision.

The Final Assessment Event was supported by two EU experts from Croatia and Greece.

TABLE F

The European Peace Facility Assistance Measures

The European Peace Facility

The EPF is an off-budget funding mechanism of 5 billion euros (2018 prices) for the current MFF period (2021-2027) for external military and defence needs of partners. It replaces the former African Peace Facility (APF) and the Athena Mechanism for the funding of common costs of military CSDP missions. In addition to continuing to lend support in military and defence matters to African partners, the EPF has a global geographic scope and can support the strengthening of military and defence capabilities in third countries, or through Peace Support Operations of international or regional organisations. The EPF has been established by Council Decision (CFSP) 2021/509 of 22 March 2021.

Why an assistance measures pillar under the European Peace Facility?

An ambitious approach to security and defence is vital to respond to unprecedented external challenges linked to instability and fragility in the EU's neighbourhood and beyond. As underlined in the EU Global Strategy and in line with the 2017 EU new Consensus on Development, this means doing more to prevent conflict, promote human security, address instability and work towards a safer world. More specifically, in line with the Implementation Plan on Security and Defence, the EU should enhance its ability to respond to external conflicts and crises, build partner capacities and protect the EU and its citizens.

What are the precise issues that EPF assistance measures could address?

The EPF aims at closing gaps in the EU's ability to provide military and defence assistance, beyond CSDP missions, and therefore increase the impact, effectiveness and sustainability of overall EU support efforts for peace and socio-economic development. Specifically, by providing the EU with new capabilities in support to the EU broader strategies toward a region or a country, the EPF will allow the EU to:

- **continue to assist Peace Support Operations conducted by international and regional organisations, and to support partners' directly.** For the first time, the EU will have the possibility to provide military/defence operational support directly to third States as well as to international organisations, also outside of Africa.
- **Engage in capacity building in military and defence area.**

In the past, there was limited capacity at EU level to engage in broader actions of a military / defence nature in support of CFSP objectives, in particular capacity building activities for military actors, and the provision of military training, equipment and infrastructure.

What could EPF assistance measures be used for?

Illustratively, the EPF would allow for continuation of the military aspects of EU support formerly granted through the African Peace Facility (e.g. for peace support operations like AMISOM or the G5 Sahel Joint Force).

It would also permit a more flexible range of actions of a military / defence nature in support of CFSP goals. This might include the support to other international or regional organizations than the African Union, provision to third countries' armed forces of infrastructure, equipment and supplies, military technical assistance, or items from the EU Common Military List, which cannot be fully accomplished under existing EU instruments for capacity building in support of security and development. This support could take place against the backdrop of an existing or future CSDP military mission or operation in the same country. Taken together, the EU would then be in the position to provide packages — including military equipment for the armed forces and associated military training — to help build the capacity of national armed forces to ensure peace and security on their national territory.

Assistance measures under the EPF will be based on an integrated methodological framework to ensure adequate risk assessments and mitigating measures, to ensure full compliance with international human rights law and international humanitarian law as well as relevant arms export laws (Council Common Position 2008/944/CFSP and the Arms Trade Treaty).

Infringement and/or abuses by the beneficiary should lead to the Council decision to suspend or terminate the assistance and the request for remedial actions.

The EEAS will ensure monitoring of the respect of international laws and commitment by the beneficiary. It will be done at both country (EUDELs) and HQ level. Local civil society will be invited to report in the case of suspected violations of international humanitarian law and human rights law.

In the case of distinct assistance measure on the provision of equipment, or platforms, designed to deliver lethal force, MS with constitutional constraints could constructively abstain. To keep with the GNI key, in such a case, they will provide additional contribution to other assistances measures of their choice.

Information and Reporting

The annual report published according to article 8(2) of Council Common Position 2008/944/CFSP defining common rules governing the control of exports of military technology and equipment will report about the assistance measures consisting of Union actions under Article 28 TEU undertaken by the EPF. It will include the data on the export of equipment or technology on the EU Military List through the EPF.
